Connection Methods

Formulate™ structures use a number of different yet simple connection methods. Your kit will include one or more of the connection methods shown below. Steps within the Kit Assembly will reference a specific method for each connection point.
Connection Method 1:
ES30 / ES50 / ES75

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 2:
**Snap Buttons & Swage**

Swage

Snap Buttons

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

Connection Method 3:
ES30-90B / ES30-I / ES30-C

ES30-90B

ES30-90B

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 4:
Tube Clamps

TCP

TC

TCH

Be sure to fully assemble all frames before using clamps. With the clamp unlocked, place one tube of the first frame into the mouth of the clamp. Place the second tube (if applicable) into the second mouth of the clamp. With both frame's tubes in the clamp, be sure to lock securely, but do not overtighten.
Kit Assembly
Step by Step

Step 1.

Gather the components necessary for assembling Frame A.

Please reference Connection Method 2 for more details.

Step 2.

With Frame A laying flat on the floor, locate your pillowcase graphic. With the pillowcase unzipped, encase Frame A by covering the frame from Top to Bottom.

Zipper located to the bottom of the graphic.

Bottom Of Frame

Step 3.

Locate both TCH-30-B2B-300 clamps. Attach to the top of your ladder.

Please reference Connection Method 4 for more details.

Step 4.

Locate the backwall and Frame A. Using the TCH-30-B2B-200's connect the frame to a backwall unit. Using the provided allen key set, attach the clamps to the tops of the frames as shown in the figure to the right.

Please reference Connection Method 4 for more details.
