Hardware Assembly

Step 1

Open all parts to the hardware and assemble the parts by matching up the symbols to the corresponding symbol illustrated in the image to the right.
❶

CONNECT

❷

PRESS

❸

NOTE:

Symbols represented to the right are for reference only and do not necessarily represent the symbols on your hardware.

12.2.13

Graphic Setup

Step 1

Set the assembled hardware on a clean surface. Locate the bottom of the graphic (zippered end) and slide it over the top of the hardware and continue to slide down over hardware.

NOTE:

The graphic is designed to fit the hardware precicely, as a result the graphic may appear to be too tight during the installation process (this is normal).

Step 2

Zip the graphic closed on the bottom.

Storage

Store in a cool dry location.

Care

Machine Wash Cold, gentle cycle. Air Dry Only
