

# Arch A-Frame

## Product Parts

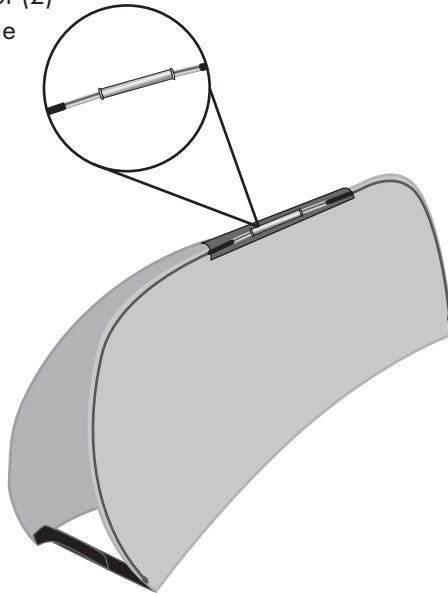

- 1 - Poles (x4)
- 2 - Pole Connector (x2)
- 3 - Ground Stakes (x4)
- 4 - Graphic
- 5 - Soft Case

## Banner Install

### Step 1

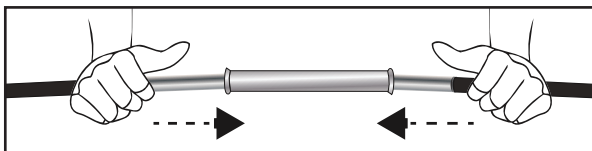

Each side of Graphic (4) will use two Poles (1) and one Pole Connector (2). Push rounded end of Pole (1) into opening at top. Slide Pole Connector (2) over the end of one of the two poles sticking out of opening.

### Step 2

With downward pressure align the two poles and slide the second Pole (1) into Pole Connector (2).

**CAUTION:** The spring tension from the poles inserted into the Graphic (4) can snap open unexpectedly if you let go too soon. Keep clear from face.

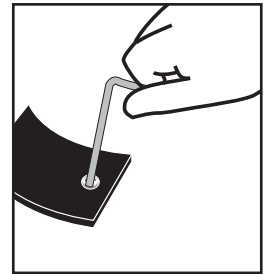

### Step 3

Position Graphic (4) in place and secure the Hook and Loop webbing straps in place on each bottom end.

### Step 4

OPTION: Secure with Ground Stakes (3) inserted through webbing located on inside of framework.

## Tear Down

### Step 5

Undo Hook and Loop webbing straps on each bottom end. Remove Poles (1) in reverse of STEP 2.

**CAUTION:** The spring tension from the poles inserted into the Graphic (4) can snap open unexpectedly if you let go too soon. Keep clear from face.

## Storage & Care

Store in a cool, dry place. Spot clean the graphic, wipe with a damp cloth. Do NOT dry clean graphic.
